

Timer 6 Interrupt
Service Routine

```
graph TD; A[Timer 6 Interrupt Service Routine] --> B[Set all 15 Servo pins high]; B --> C[Set period for first servo]; C --> D[Start Timer 7]; D --> E[Return];
```

The flowchart illustrates the steps of the Timer 6 Interrupt Service Routine. It begins with the routine name, followed by setting all 15 servo pins high, then setting the period for the first servo, starting Timer 7, and finally returning.

Set all 15 Servo pins
high

Set period for first servo

Start Timer 7

Return
